M'KINLEY TALKS TO VIRGINIANS

MORE CONFIDENCE IS NECESSARY

Large Delegations of Artisans from Cleveland, Mingo Junction and Other Points, and a Special Train of Handsome Wagner Sleeping Cars Brings the Boston and New England Visitors.

Canton, O., Oct. 27.—The delegations were late in reaching Canton today. The first to arrive was a large one from the mountain counties of West Virginia and Maryland on the Baltimore and Ohio railroad.

"I am glad to be assured by your spokesman that both states can be won for the Republican cause. The result of the election of the 27th of November will be different then I shall not regard him as a good prophet of the state of West Virginia was Republican two years ago, the state of Maryland was Republican a year ago, and I know of no reason why it should alter after the respective verdicts then rendered in favor of the Republican principles.

"The highest destiny of man is the aspiration of the human family wherever located. We divide ourselves into great governmental systems. The protectors of the people in these systems will best subserve in the countries and best secure the destiny for their people. We have the best system under the sun. It is certainly the freest and up to this hour, has been a nation not of dishonor, but of honor.

"What we want in this country is an opportunity to develop it. Your two states are only waiting for the magic touch of confidence to unfold the ample riches which the Almighty has put in your hills. You were just beginning prior to 1892 to enjoy the largest development you had ever enjoyed. Splendid industries scattered all over two states, were enjoying the very highest prosperity that has been enjoyed before. Confidence is shaken, business is paralyzed, men have no faith in the future; men don't know what it is to await them in their business, capitalists sit with their money hoarded in strong boxes, and while capital is hoarded in the strong boxes, labor is idle on the streets. All because there is no confidence in the people—the president of the United States, I think you, men of Jersey City, for all you are doing and will do for the Republic, and respect as Governor Griggs also spoke briefly. He paid a compliment to President Cleveland. 'We Republicans,' said he, 'are supporting a Democratic federal government because it stands for sound money, while some Democrats who four years ago shouted and voted for Mr. Cleveland are now joining the ranks of disorder and revolution. With the Republicans today stand the honesty and the respectability of Democracy.'

CLEVELAND VISITORS.

The next delegation came from Cleveland, and was composed of about a thousand employees in the aggregate of the Union Nut company, the Lampson company and the Peck, Stow & Wilcox company. W. F. McKimley was spokesman and he made a ringing address. The delegation was a hilarious and uncommonly enthusiastic one.

"The delegation voted for the free trade four years ago and they had been sorry for it ever since and proposed to reverse the distress they had caused. McKimley took up the line of thought and discussed the tariff for several minutes. A pressing crisis behind the Cleveland delegation were 600 workmen from the Junction Iron and Steel works of Mingo Junction, and Captain W. J. Trubart introduced them in a few words to McKimley. McKimley addressed them from the stand in front of his lawn. A special train of handsome Wagner sleeping and dining cars brought a fine delegation from Boston and other New England cities at 2 p. m. today. The excursion was under the auspices of the Boston Herald. The members of the New England Sound Money league who composed the delegations were met at the station by the Canton mounted troop and the widely known Grand Army band and a company of prominent citizens, who escorted them to the hotel. NEW ENGLAND'S GIFTS.

Holmes on the part of the Salem Cogswell Republican club, with a golden watch spoon, and the women of Massachusetts, through Mrs. Emma S. Army, sent Major McKinley a twig from a pear tree planted in Danvers in 1850 by Governor Endicott. A well organized and interested delegation of women from Norwalk, Ohio, were the next callers. There were more than 200 in line when they entered the streets, accompanied by a large committee of Canton ladies. Each woman in the delegation

"PROCLAMATION" SCHEME EXPOSED.

CHICAGO, Oct. 27.—The Republican National Committee today gave out the following:

CHICAGO, Ill., Oct. 26.

To the Workingmen of the United States: To refute a false statement, and to correct an impression that our friends and acquaintances may have formed concerning our signatures to a campaign document going the rounds of the press and circulated broadcast on the streets, entitled "Proclamation," in which we are made to appear that we are in favor of free silver at any ratio and substantially the establishment of two standards of money, contradictory as the terms may be, we wish to be recorded by all who are interested in our position, as being emphatically and unequivocally against any such measures, but are for the sound money plank promulgated by the Republican convention at St. Louis.

Our signatures were obtained nearly three years ago to a document pretending to be a "memorial" to congress then in session, which in our belief and memory was a much milder paper than is the "proclamation" referred to. And no matter what our opinions may have been on the money question at the time of our signing the memorial, nearly three years ago, we have learned enough since on the subject to warrant us in denouncing the attempt at free coinage of silver at 16 to 1, believing it to be directly against the interests of labor and also believing that under a condition of free coinage this country will be subjected to one of the most frightful panics that any country in this world has ever seen. Our belief in this statement is strengthened by an admission made by William J. Bryan, candidate for president, in a recent speech in the northwest, wherein he is reported to have said that he thought that a free silver condition would bring for the present, stagnation and panic, but from which, in four years, we would recover. We do not believe that this country can stand an additional four years of misery and distress, and are therefore opposed to the sentiments contained in the aforesaid "proclamation."

Very respectfully, P. M. ARTHUR, Grand Chief, Brotherhood Locomotive Engineers. E. P. SARGENT, Grand Master, Brotherhood of Locomotive Firemen. F. W. ARNOLD, Grand Secretary and Treasurer, Brotherhood of Locomotive Firemen.
